

2RU RACK MOUNT PLENUM EQUIPMENT BOX

**CAN BE POLE MOUNTED, HUNG
OR INTEGRATED INTO THE CEILING TILE KIT SYSTEM**

THESE ARE SOME OF THE WAYS THE 2RU RACK MOUNT PLENUM BOX CAN BE USED

Pole Mounting

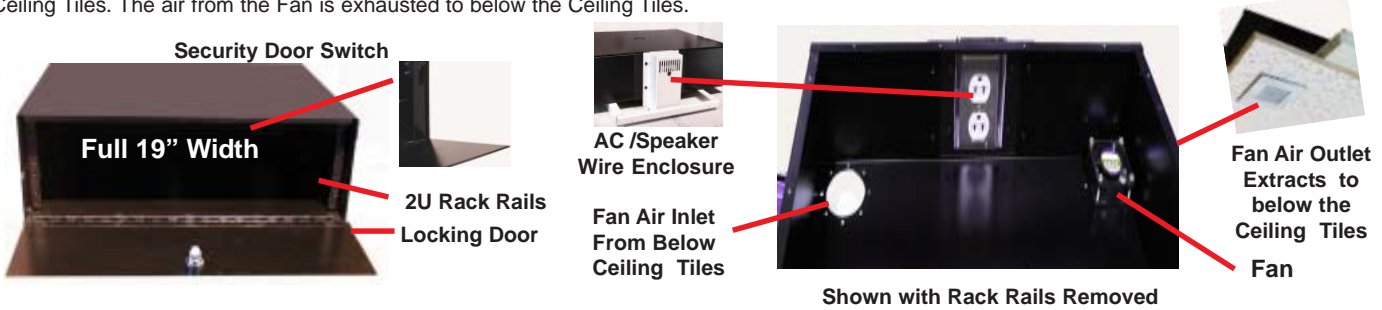

Using the Ceiling Tile Kit

Using the Hanging Kit

HEAT PROTECTION FOR THE INSTALLED EQUIPMENT

We have addressed the problem that may occur when Equipment is installed inside that may generate an excessive amount of heat, by installing a Fan Control System. Fitted with one Fan and our Basic Fan Controller air enters the Plenum Equipment Box through a duct that is located below the Ceiling Tiles. The air from the Fan is exhausted to below the Ceiling Tiles.

2U RACK RAILS

The two Rails that are supplied with the Unit can be removed if the Equipment that is being Installed doesn't require Rack Mounting.

TOTAL SECURITY

To protect the installed Equipment from Theft, a Locking Door and Door Micro Switch is fitted. Should someone force the Door open the NO/NC Micro Switch if connected to an AMX®, Crestron®, Aurora WACI®, or Alarm System will immediately send a message reporting that unauthorized Entry has been attempted.

WORKING WITH AMX®, CRESTRON® OR SIMILAR CONTROLLERS

Users wishing to connect to an AMX®, Crestron® or Aurora Wac®i will find there are NO and NC Connectors on the various Controllers, making it very simple to connect to both the Door Micro Switch and the NO or NC Connectors on the Fan Controller.

DIMENSIONS

19.25" w 14" d, 4.75" h

Weight: 9 lbs

CAD Drawings created in AutoCAD can be downloaded from our web site for incorporation into your own design layout.

Part #	Description	List Price
