

CEILING TILE SUPPORTS

Eliminates the need for a Ceiling Tile Kit when used with any of our Plenum Boxes

Watch the Demo

INSTRUCTIONS

• Fits a Standard 2 ft Ceiling Grid Pattern

(When used with any of our Plenum Boxes)

The Supports are suspended using the Hanging Kit that sits above the Ceiling Tiles using the Grid Frame for additional steadying of the complete assembly.

1. Each Ceiling Tile Bracket is attached to the Plenum Box using (6) 8.32 x 1/4" Pan Head Screws each side.
2. Attach (1) Pole Retaining Nut on threaded part of Pole.
3. Insert this into the Plenum Box Hole.
4. Attach the 2nd Pole Retaining Nut and tighten.

***LINKING A PROJECTOR TO A HANGING PLENUM BOX**

To attach a Projector Pole to a Hanging Plenum Box turn the box to the underside to reveal a 1 1/2" Pipe Knock Out. Tap this out so you can insert the Pole.

1. Screw (1) Pole Retaining Ring to the Pole.
2. Insert the Pole through the Plenum Hole
3. Attach the 2nd Pole Retaining Ring to the inside and tighten so the Pole is firmly attached

Extra Size Plenum Box shown with NB-CTSELB Ceiling Tile Supports

OUR SOLUTION ALLOWS EVERYTHING TO BE HIDDEN FROM VIEW

One of the more obvious advantages is that **EVERYTHING** used to Mount the Equipment including the Power Supply is in the Plenum Box and the Peripheral Equipment installed inside are completely hidden from view.

Hanging Version Plenum Equipment Box, Ceiling Tile Supports with Projector Pole attached using (1) Set of Pole Retaining Nuts
