

ANTI-VIBRATION POLE MOUNT ADAPTORS FOR ANY PTZ CAMERAS

**THIS "ONE SIZE FITS ALL" POLE MOUNTING MULTI-CAMERA ADAPTOR
 FITS ANY CAMERA REGARDLESS OF MODEL OR MANUFACTURE**

Finished in Black or White Scratch Resistant Powder Coated Enamel

Our Patent Applied For Design Protects And Isolates Cameras From Unwanted Vibration

All our Anti-Vibration Devices use a proprietary Visco-Elastic Polymer that flows like a liquid under load. Combining this fast reacting high energy absorption with a near faultless long Memory, guarantees it will outlast any other material, including all one dimensional materials like Rubber or Springs that are often used in an attempt to cure vibration. Rubber in particular has a short life and Springs will also lose their efficiency over a similar short time.

ITS ELEGANT EUROPEAN INSPIRED DESIGN, MAKES IT SUITABLE FOR ALL CAMERA INSTALLATIONS

Regardless of which Camera you have this one "Camera fits all" Adaptor is all you need to attach to any 1 1/2" Pole

**THESE ARE A SAMPLE OF THE MANY POPULAR PTZ CAMERAS THAT USE 1/4.20 TRIPOD MOUNTINGS
 (There are other Makes and Models that will also fit)**

- All Panasonic PTZ Cameras
- All Vaddio PTZ Cameras including the Robo & Clear Shot 10 Cameras
- All Sony PTZ Cameras
- All Canon PTZ Cameras
- All Lumens PTZ Cameras

And Many More - Please inquire

IF YOUR CAMERA USES 1/4.20 TRIPOD MOUNTING, THERE IS NO MODIFICATION NECESSARY OR REDUNDANCY EVEN IF YOU CHANGE CAMERA OR MODEL TYPE

SIMPLER AND FASTER TO INSTALL THAN ANY OTHER SUPPORT SYSTEM

Our Anti-Vibration Adaptors are supplied ready to attach to any Camera, our "No Tools" Captive Bolts approach makes installation quicker and simpler than any other Support System

A combination of our Specially Designed Anti-Vibration Gasket * and the 4 Anti-Isolation Grommets installed on the Camera's Plate are guaranteed to absorb vibrations up to 30,000 Hertz

Why Struggle when we make it easy with our "No Tools" approach

The Camera Plate 3" Slot allows the Captive 1/4.20 Sliding Mounting Tripod Screws to match up to the Camera's 1/4.20 Tripod Mounting Holes for instant attachment

Once the Camera is attached to the clean lines of the Wall Bracket, it becomes almost invisible

See the leaflet that describes our NB-AVCB Anti-Vibration Multi-Camera Wall or Pole Mounting Units. Available in both Black or White Scratch Resistant Baked Enamel
