

## TECH NOTES #7

**Using the NB-AVCB Anti-Vibration Multi-Camera Bracket with the NB-PCP-W Anti-Vibration Ceiling Plate replaces the Vaddio® Drop Down Camera Mounts**

Anti-Vibration Ceiling Plate NB-PCP-W

Alternative, using Unistrut instead of using 1/2" dia. Pipe

Customer Supplied 1 1/2" dia. Pipe

Pole to Unistrut® Adaptor Part # NB-TSA

Anti-Vibration Gasket

The Anti-vibration Gasket is sandwiched between the Adaptor and the wall or when the Adaptor is used with the Back Plate the Anti-Vibration Gasket is sandwiched between the two

Customer Supplied Unistrut® Channel

Back Plate shown with Unistrut® Bracket

Back Plates are also available in White  
Black Back Plate Part # NB-PMA  
White Back Plate Part # NB-PMA-W

Because the Anti-Vibration Grommets can be used either in Compression or suspension, the Anti-Vibration Adaptor can also be inverted

The Black Anti Vibration Multi-Camera Bracket Part # NB-AVCB is also available in White Part # NB-AVCB-W  
See Catalog for additional details

These solutions address the issues of the need to replace the Vaddio® Drop Down Series of Camera Mounting to eliminate Vibration. The following Cameras will also benefit: Sony® EVI-D100, Canon® VC-C50i, Polycom® PowerCam Lifesize®, Vaddio® HD18, Sony® EVI-HD1, Tanberg® Precision HD, Polycom® Eagle Eye PTZ.
