

# TECHNICAL BULLETIN #4

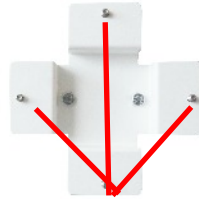

## ANTI-VIBRATION SOLUTIONS FOR DIFFERENT PAN & TILT CAMERAS

A System of Mix & Match Mounting Options allowing the Installer to select which Mounting Part fits their Installation needs best

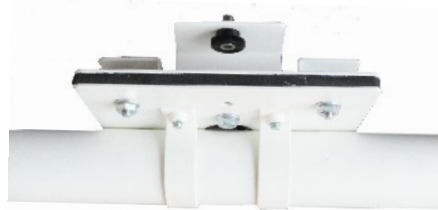

The Panasonic AW Series of Pan & Tilt Cameras shown throughout this leaflet were used to illustrate the different Mounting Possibilities. If you need a Different Camera Plate Please inquire

### INTERCHANGEABLE PAN & TILT PLATE

Each Mount shown in this Leaflet allows the Camera to be also installed inverted

The (4) attachment Screws fit directly to the Pan & Tilt Section of the Mounting Plate

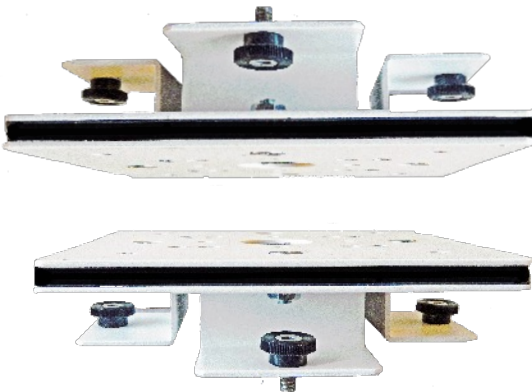

Pole Mount Fitting Black Finish  
Part # NB-PMF \$499.95 List Price  
Pole Mount Fitting White Finish  
Part # NB-PMF-W \$499.95 List Price

By replacing JUST the Pan & Tilt's Plate with a suitable one designed to fit a different Camera, the Anti-Vibration Mounting Section is retained for use with the new Camera

Measuring 6.5 x 6.5 or 42.250 square inches of Anti-Vibration Gasket is designed to provide enough Protection even in very Harsh Conditions

The Anti-Vibration Gasket is Sandwiched between each Plate of each Mounting Bracket
